8 OCTOBER 2024 08H30

ECA(SA) TRAINING CENTRE, 46 NEWMARKET ST CAPE TOWN

Zephyr Solar has been simplifying and refining Solar Panel Installation for more than 13 years. Zephyr's solar panels are supplied in a kit form, eliminating the need for additional components, and are designed for both Residential and Commercial installations.

Zephyr's Kits are designed and supplied for solar panel sizes up to 1134mm, with Mounting system and components have been designed and certified by a registered professional structural engineer in South Africa to withstand wind loads up to 2000Pa or 203km/h.

We offer the following to all of our Magneto Customers:

Supply of structures | Supply and erecting of structures | Supply, erecting and panel lays, and a choice of smart options.

THIS EVENT IS PRESENTED BY THE ECA CAPE TOWN IN PARTNERSHIP WITH MAGNETO ENERGY & ZEPHYR SOLAR TECHNOLOGIES.

THE ECA(SA) CAPE TOWN PROVIDES LEARNING EXPERIENCES WHICH ENRICH AND ADD VALUE TO THE ELECTRICAL CONTRACTING INDUSTRY.

PARTNERSHIPS SUCH AS THIS STRENGTHEN THE INDUSTRY THROUGH KNOWLEDGE, NETWORKING AND SKILLS ACQUISITION.
