

Become an Electrician Today!

We can help you achieve your Goal.

About us.

The ECA(SA) is a registered employers' organization under the Labour Relations Act, representing South African electrical contractors since 1948. With a membership network of approximately 4,000 electrical contractors, the ECA(SA) represents over 75% of the workforce employed within the electrical contracting industry.

Occupational Certificates

ECA(SA) Highveld Region is accredited to deliver both Occupational Certificates on PV and Electrical offering high quality training to sharpen skills and gain a unique edge in industry.

Modules Training

M 0 - 6 provides comprehensive electrical knowledge essential for success, covering everything from motors to wireways. The program offers flexible attendance options, including weekends, evenings, or full-time during the day, making it accessible to everyone.

Electric Fencing

Expand your business by adding electric fence installation to your offerings. By completing this course, you'll go through the Recognition of Prior Learning (RPL) process, allowing you to obtain the Electric Fence System Installer (EFSI) registration.

Elconop Training

If you're looking to advance to ELCONOP 2 or 3, we can assist with both assessment and training. Let us help you take the next step in your career.

Unit Standards

Are you interested in becoming an Electrical Tester for Single Phase (ETSP), Installation Electrician (IE), or Master Installation Electrician (MIE)? We're here to help! Complete the process with confidence at a trusted training center.

ARPL and Trade Test

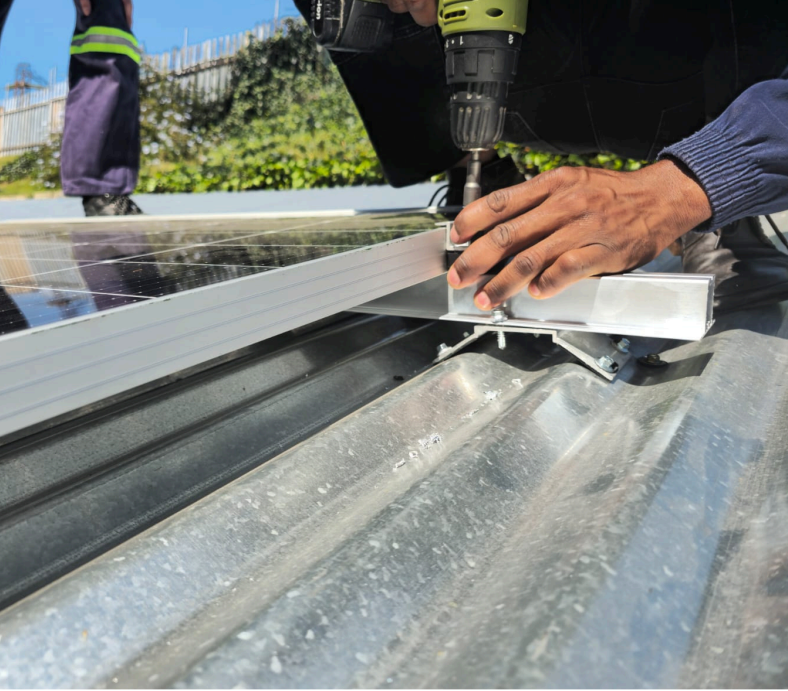

ECA(SA) Highveld Region boasts a fully accredited trade test center, renowned for producing high-quality artisans who have achieved recognition worldwide. If you have relevant experience, you can undergo an Artisan Recognition of Prior Learning (ARPL) assessment, which may qualify you to take your trade test with a minimum of three years of experience.
